CUCCUGATILLA'

It's called Cuccugatilla (in English Dirdturtusechilla) because it is a combination of dog, bird, turtle, mouse and chinchilla

It's small like a bird

It's got the body of a green bird but the wings are yellow, the face is of a brown small dog, the ears are of a chinchilla and they are pink with brown dots, it also has a pink tail of a mouse and the shell of a turtle.

It eats everything (meat, fish, fruit...)

I painted it with tempera.

By Megan A.

TURTION

My fantasy animal is called Turtion.

It's gigantic and very strong because it has a lion's head, a turtle's body, legs of a chicken, a tail of a pig and two dragon wings.

It Can fly.

Turtion is very slow.

I have colored my fantastic animal with pastels.

The eyes are light blue, the dragon wings are blue, the tail of a pig is pink, the lion head is orange and the turtle body is brown.

LONG TAIL JOE

My fantasy animal is called Long Tail Joe.

I gave it this name because it has a very long tail.

Besides its long tail, it's not a very big animal.

It looks a lot like a seahorse, its head looks a lot like the head of a horse, its wings look like beautiful butterfly wings and its tail is very similar to a cobra snake tail.

Its tail is brown, its body and head are dark brown and its wings are white and blue.

Long Tail Joe lives in water areas, but the swamp is its favourite habitat because it likes to hide behind the vegetation.

Long Tail Joe loves to swim and lie in the sun by the swamp.

It is a very friendly animal and it is not dangerous at all.

I painted my Long Tail Joe with tempera.

POWER RABBIT

POWER RABBIT is the name of my fantasy animal. It is an extraordinary animal, because it has extraordinary powers.

It is very very small, it looks like a little white rabbit, with long pink ears. It has two small oval eyes, it is furry on the head. Its soft mini body is covered with white fur.

When it opens its giant yellow and red large wings, it becomes a large winged horse, thanks to its hard black hooves. It's really amazing!

When it turns, it becomes very tall, long and bright. It can fly high in the blue sky, because it is very light.

I colored it with tempera, I used the large brush but also a very small brush to make the black edges. I used light bright colors for the body and dark green for the background.

WIKI, THE GOOD GIANT

Wiki, the good giant, was my fantasy animal and it was very big.

It was made from the parts of different animals: a red rooster's head, some gray feathers and a heron's neck, a pink and oval man's face, two enormous parrot's wings, two big and orange duck's legs, golden eyes and a snake tongue.

It was very tall and it could fly but it didn't have hands.

It may sound scary, but it was very kind.

It lived near the mountain waterfalls.

I painted it with crayons and the result was beautiful.

By Giada F.

MOUNTAIN DRAGON

It's called Mountain Dragon! I called him like this because it lives in a mountain and a part of its body is from a mountain animal and it's got a dragon head.

It's very big, strong, agile and friendly but when it's angry Mountain Dragon is very dangerous.

Mountain Dragon is made from the parts of 4 animals.

It has yellow and red phoenix wings, a brown deer body, a long and brown scorpion tail and a fantastic green head of a dragon! I painted it with tempera and felt tip.

I like my fantastic animal because it is nice and I love dragons.

By Nicholas G.

DRASERPIP

It's called Draserpip.

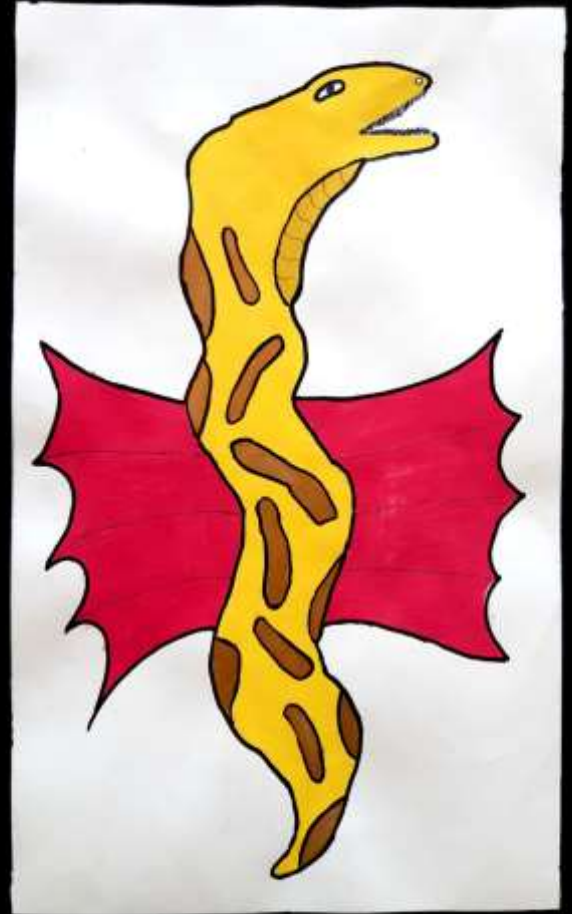

This is its name because Draserpip are the initials of the animals I used. It travels the world flying with his wings; if you meet it, it could be your end.

It is very scary and strong and sometimes it is very bad.

It eats human meat. It is in the shape of an animal long and thin. It's got a dragon yellow face, a yellow snake body with gold scales and red pointed wings of a bat.

I painted it with tempera with medieval colors and the outlines with a black permanent marker.

By Thomas G.

AZIR

It's called Azir.

I chose this name because my animal is powerful and this name represents it very well. It's large, long, thin and tall.

It's thorny, spiky, scary, striped, wavy and smooth.

It's in the shape of a spiral.

It's got a dragon's head with long teeth and a long tongue, it's got two snake's bodies.

The head is green and the tongue is very red, one of the snake's bodies is black and white and the other is green and orange. I painted it with pastels and felt-tip pens.

By Irene G.

COMBAT SEAHORSE

My fantasy animal is called Combat Seahorse because it is great but it is very aggressive too.

It is very big and its tail is very long.

It is in the shape of a spiral: it has two green lizard pawns, two black and red wings similar to a dragon and it has the orange body of a seahorse with red stripes. I drew the seahorse, then I drew two wings and at the end I drew two lizard pawns.

I painted it with pastels and I passed over it with black felt tip pen.

PISTRELO

It's called Pistrelo.

It's quite big.

It's got a quite big red horse's head, a quite big red pig's body, a short yellow-purple horn, little brown chicken's paws and a green long snake's tail.

I painted it with crayons.

By Andrea P.

MOSCHORSE

My fantasy animal is called Moschorse because the parts of the body that you most recognize are only the Horse paws and because it is the size of a Fly .

it is very small and it is 5 millimeters high and it doesn't have a precise shape.

It's got three green and purple Horse paws,two green Pegasus wings,a blue Unicorn horn,a green Lynx ear,a gray mouth of Piranha and two black Lions eyes.

It can run at a speed of 45 kilometers per hour but its real specialty is flying because it can fly at a speed of 80 kilometers per hour.

it only eats dead animals and insects smaller than himself.

I painted it with crayons.

By Leonardo R.

KINDER PINGU

My fantasy animal is called Kinder Pingu because it's a penguin.

It's very big and it rolls to move but he can fly.

It has the shape of a big coloured ball but this ball is cute and nice.

DRAGO FENNEC

My fantastic animal is called dragon fennec and has a spotted yellow and light brown fur.

It has blue eyes and 4 very hairy legs.

It has a very strong body similar to a lion.

It has a dragon's ears.

It has very long and narrow wings with scales.

It has a lizard's tail with spines on it.

Its tail is slimy and very large.

its larger 10 meters.

I painted it with tempera.

By Gaia S.

DRACUNG

It's called Dracung, that's a very funny name and personally I like it. I chose that name because my mysterious creature (that you will know later) is a mixture of various animals and I thought: "why not give it a name formed by some animals body parts that make it up?" So I did it.

It isn't very proportionate, it has a very large head and body, I would say huge, while the front and upper legs are so tiny that you can hardly see them.

And now, finally, let's discover the shapes of Dracung.

The first thing we see is his green head, with some clearer details; the mouth is menacing and is characterized by a red tongue like fire. Yeah he's got a dragon head.

Its body is pink to orange, it is very large and rounded. It is the body of a marsupial: the kangaroo.

Two very thin and small arms start from his body, I would say almost invisibles.

They are characterized by claws almost threatening.

From the extremity of the body, starts a thick red and orange tail.

It belongs to a very cunning and crafty animal, seen in many fairy tales: yes, he has a fox tail.

Finally the legs. Well, I must admit that the animal to which the legs belong, has always scared me! The legs are yellow and they too have claws; it has crow's feet.

I painted it with tempera of various colors (dark green, light green, red, orange, pink, yellow and white), pastels for the light/dark effects and the black permanent marker.

I really love my imaginary animal, he's very nice and cute!
